Homes Under Construction

Exciting progress is underway at Delamar, with several thoughtfully designed spec homes currently under construction. These homes offer a unique opportunity to move into the coastal lifestyle sooner, while still enjoying the elevated finishes and intentional design Delamar is known for.

Secondary Gates in Place

A section of Delamar's secondary gates are officially up, beautifully mirroring the elegant and strong presence of the main entrance. These completed additions enhance the sense of arrival from every access point while reinforcing the community's cohesive architectural vision.

Where Community Comes to Life

The amenity center is steadily progressing and beginning to take shape as the future clubhouse and pool residents will soon enjoy. Designed as a central gathering place for connection and relaxation, this space will embody Delamar's elevated coastal lifestyle. Completion is estimated for Summer 2026.

Ready for the Water at Delamar

Just in time for spring and summer, the first 8 private boat slips and dry boat storage are complete and ready for owners to enjoy. With boating access built directly into the community, residents can step seamlessly into longer days, sunset cruises, and spontaneous weekends on the water. It's a lifestyle that truly sets Delamar apart—where warmer weather means your boat is already waiting.
